¹The grates have been redesigned. You may need to replace both grates to make sure they match.

²**IMPORTANT:** The ignitor assembly and burner rings were redesigned on later versions of the cooktop. The older designs are no longer available. The new ignitor design only works with the newer burner ring design, while the new burner ring design is compatible with all versions of the ignitor assembly. When replacing the ignitor assembly check to make sure the latest version of the burner ring is installed. If the burner ring has a hole on its side (see diagrams below), it must be replaced with correct size (B or C) of the newer version. Items 30 and 31 above list the part number for the newer versions of the burner ring.

¹Effective with revision G of the cooktop, the grates were redesigned. On cooktops manufactured before revision G, all three grates may need to be replaced to make sure they match.

²**IMPORTANT:** The ignitor assembly and burner rings were redesigned on later versions of the cooktop. The older designs are no longer available. The new ignitor design only works with the newer burner ring design, while the new burner ring design is compatible with all versions of the ignitor assembly. When replacing the the ignitor assembly check to make sure the latest version of the burner ring is installed. If the burner ring has a hole on its side (see diagrams below), it must be replaced with correct size (B, C or D) of the newer version. Items 29, 30 and 31 above list the part numbers for the newer versions of the burner ring.

³For complete burner set of burner rings, order part number 72929. 72929 contains 2 B size rings, 1 C size ring and 1 D size ring.
